

OSSR Onboarding - Integration #148

Onboarding: ATLAS Open Data analyses framework at 13 TeV

02/24/2022 04:23 PM - Jutta Schnabel

Status:	In Progress	Start date:	04/14/2021
Priority:	Normal	Due date:	
Assignee:	Jutta Schnabel	% Done:	80%
Category:		Estimated time:	0.00 hour
Target version:	OSSR primer	Video recording:	https://youtu.be/mwrvacvjF4rQ
Documentation:	http://opendata.atlas.cern/release/2020/documentation/frameworks/cpp.html	Zenodo entry:	https://zenodo.org/record/5501338
Meeting contribution:	https://indico.in2p3.fr/event/24458/?view=standard#1-onboarding-the-atlas-open-da		
Description			
A repository with 12 high energy physics analysis examples using the ATLAS Open Data 13 TeV dataset released in 2020. It is written in C++ and some bash scripts.
